MARYAM NAJVAN

CARE

i Put it on last.

Put it on after perfume, lotion and hairspray. Take it off to swim, exercise, clean or sleep.

ii Clean it gently.

Use a soft cloth. For gold and diamonds: warm water, a little mild soap, a soft brush. Dry it well.

iii Soft stones need more care.

Emerald, tanzanite, turquoise and pearl: a soft dry cloth only. No ultrasonic or steam cleaner. No sudden heat. Keep amethyst out of strong sun.

iv Keep each piece apart.

Use its own pouch, so the pieces do not scratch each other.

v Once a year.

Ask a jeweler to check the claws, settings and clasp.
